Jan Michael Kubín

Varicard diagnostic device

offer for measuring the activity of the nervous and endocrine systems using the heart rate variability (HRV) method

Price offer valid until 31 December 2026

Results of the 4 phases of communication breakdown

Good Stress Acute problem Chronic problem

General parameters of the heart rate variability			art rate variability		heart rate variability			the heart rate variability		
Name	Value	Norm	Value	Norm		Value	Norm		Value	Norm
Heart rate (HR), bpm	71	60 - 75	71	60 - 75		86**	60 - 75		109**	60 - 75
Standard deviation (SDNN), ms	43.1	30 - 69	34,5	30 - 69		14.5**	30 - 69		5.1**	30 - 69
Coefficient of variation (CV), %	5.1	3 - 12	4,1	3 - 12		2.1*	3 - 12		0.9*	3 - 12
Stress index (SI), comp.un.	90	70 - 150	307**	70 - 150		422**	70 - 150		2161**	70 - 150
Index of centralization (IC), comp.un.	2.1*	0.9 - 2.0	4,7**	0,9 - 1,3		1.4	0.9 - 2.0		6.0**	0.9 - 2.0
IARS, comp.un. (1, -1)	2	1 - 3	4*	1 - 3	(6, 0)	6*	1 - 3	(8, 0)	8**	1 - 3
Nr. of arrythmias (NArr), %	0.0	0 - 0.5	0,0	0 - 0,5		0.0	0 - 0.5		0.2	0 - 0.5
Performance HF, %	32.1	20 - 39	17,7**	20 - 39		42.3*	20 - 39		14.2*	20 - 39
Performance LF, %	53.9*	15 - 39	51,1**	15 - 39		34.6	15 - 39		26.5	15 - 39
Performance VLF, %	14.0*	15 - 39	31,3	15 - 39		23.1	15 - 39		59.3*	15 - 39
TP, ms^2	1488	1000 - 2000	531**	1000 - 2000		109**	1000 - 2000		18**	1000 - 2000

This diagnostic test determines the state of communication in the nervous and endocrine systems within 5 minutes. This communication status describes the success of the chosen treatment. The results show us how to proceed further.

We are an international team engaged in research, production, distribution, and consulting in HRV diagnostics in many places worldwide. You can find contacts in the list on our website and reach out to the nearest colleague. Global standards for HRV methodology have been in place since 1996. Our cooperation has lasted 26 years.

Our aim is to identify the level of communication. It differs fundamentally in full health, with rising risks, with the onset of an acute problem, and of course with chronic problems, as shown in the tables above. This method simply and logically describes the individual states. It helps us monitor treatment and determine next steps.

This device is equipped with a specific diagnostic program that analyzes the cardiac record. It is a specialized ECG. We know what healthy communication looks like and how results differ across various diagnoses. We see what are short-term and what are long-term problems. We know that without proper communication no system can be managed successfully, including our organism.

We can quickly and easily quantify communication blocks as the magnitude of deviations in individual parameters and graphs. Results are available immediately after measurement. When we measure before and after therapy, we immediately see the body's response and the effects of therapy. We see whether therapy improves communication (flows), does not improve it, or, conversely, worsens communication blocks. The method is easy to use in a clinic (before and after therapy), in the office or at home.

The device can be purchased or rented for a minimum of 3 months. We will deliver the device to your home within 1–2 days, install it online on your computer, and teach you how to evaluate the results. Alternatively, you can send us results for a written evaluation (see prices of services below). You choose a time for an online call with personal commentary. We are ready to provide training even before purchasing or renting the device. The training fee is deducted from the subsequent purchase or rental price.

You can, of course, arrange individual measurements with any member of our international team.

We also provide additional services such as reinstallation, buyout options, and post-warranty service. We can provide everything online. In case of a problem, we will replace the device within 24 hours.

Product / Services	Price	VAT %	VAT amount	Transport DHL	Total price
Varicard sale	1.930 euro	12%	232 euro	69 euro	2.231 euro
Variacrd rental 3 months	600 euro	12%	72 euro	2x 69 euro	810 euro
Each additional month	200 euro	12%	24 euro		224 euro
Written evaluation of one measurement	19 euro	12%	2 euro		21 euro
Comprehensive personal evaluation of multiple results	40 euro	12%	5 euro		45 euro
Training prior to purchase or rental (deductible)	100 euro	12%	21 euro		121 euro

Delivery terms: 1-2 days by DHL from stock in Prague

Payment terms: bank transfer or QR code

Warranty: 3 years as of the sale of the device

Return of the device after rental: DHL will pick it up from you

(the rental price is increased by the cost of return shipping)
